

SMOKING

TAKE A  **AND THINK
ABOUT IT**

**There are 1.1 billion smokers in the world today,
It is expected to increase to 1.6 billion by the year 2025.**

**10 million cigarettes are purchased a minute,
15 billion are sold each day,
and upwards of 5 trillion are produced
and used on an annual basis.**

**Worldwide,
one in five teens age 13 to 15 smoke cigarettes.**

**There is enough nicotine in four or five cigarettes
to kill an average adult if ingested whole.**

**Half of all long-term smokers
will die a tobacco-related death.**
